REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

in claim 4, the combined technique of starting the transmission of message information to the mobile station from the second base station transmitter before terminating the transmission of message information to the mobile station from the first base station transmitter; transmitting substantially the same message information during a transition period from both the first base station transmitter and the second base station transmitter; and combining, in the mobile station, information transmitted by the first base station transmitter and information transmitted by the second base station transmitter to reconstruct the message information in a method for handing over the responsibility for transmitting message information to a mobile station from at least one first base station transmitter to at least one second base station transmitter has not been found nor fairly suggested in the prior art;

in claim 12, the combined technique of starting the transmission of message information to the mobile station from the second base station transmitter before terminating the transmission of message information to the mobile station from the first base station transmitter; transmitting substantially the same message information during a transition period from both the first base station transmitter and the second base station transmitter, wherein a fixed delay is introduced between the transmission of a symbol of the message information from the first base station transmitter and the transmission of the same symbol of the message information from the second
